

# COUNCIL SETS THE DATE FOR A TAX SALE

Will be Held on July 27th  
If Approved by Municipal  
Department—Will Also Get  
After Stray Cattle

The regular meeting of the town council was held in the council chamber last Monday evening. Mayor Bolt presided and the following members were present: Councillors McLean, Lydiatt, Broughton, Oates and Lavelle.

In the business arising out of the minutes the committee appointed to look into the matter of erecting a house at the pumping station, reported that they had called for tenders for this building and that only one tender was received. The gures submitted were \$1,200.00 for a frame building and \$1,400.00 for a brick building, both to be for a five-roomed house. It was the opinion of the council that it might be possible to rent a house for the present and the matter was referred back to the committee for further investigation.

The engineer reported that he had prepared agreement and plans for proposed extension of the sewer and had forwarded same to the provincial engineer. No reply had as yet been received.

It was moved by Councillor Oates seconded by Councillor McLean, that the offer of \$5,000 from the purchase of 25,000 feet of road grading be accepted. Carried.

A letter was read from the town veterans association asking the co-operation of the council in arranging for a patriotic lecture here on June 15, proceeds from which to go to the fund for returned wounded soldiers and their dependents. The council was in sympathy with the movement and of giving the lecturer every assistance they also decided to arrange for hall and advertising.

A letter was read from the Alberta Red Cross Society asking the council that an effort be being put forth for a special collection for Red Cross purposes on Dominion Day, July 2nd, and asking the assistance of council and citizens. Several means of raising funds for this purpose were suggested.

The secretary reported that he had had things in shape to proceed with the tax sale of property in arrears for 1912 and 1914. The sale of lands liable for sale was prepared, he said, and would be forwarded to the department for approval.

It was then decided on motion of Councillors Lydiatt and McLean that the secretary be instructed to write the department asking for permission to hold a tax sale of the above mentioned property on July 27th.

Councillor Broughton asked if it would be possible to be more strict with the owners of cattle running at large. He said they were doing considerable damage to gardens and other property. He thought something should be done to have the nuisance stopped. It was the opinion of the council that the poundkeeper should secure a saddle pump for rounding up stock and that he keep close watch on them.

Councillor Lavelle brought up the question of the capacity of the pump at the pump station. He thought it would be a good idea to speed up the pump to about its capacity and increase the volume of water to about 15,000 gallons an hour. The pump is not doing the work it should do he thought it would be a good idea if the council secure an expert to investigate with the hope of getting better results. It was decided that this should be done.

As there was no further business introduced council adjourned.

## Canadian Soldiers Need More Socks

Telegram containing the following information has been received at the Calgary depot from the head office, Toronto:

"The demand for socks is today greater than ever. Canadian forces in the field now five times what they were two years ago, and nearly 250,000 men in hospital. We require all the hand knit or machine made socks obtainable."

# ROLLING MILLS

OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

REDCLIFF, ALBERTA, THURSDAY, JUNE 14, 1917.

## Red Cross Executive Holds Regular Meeting

The regular meeting of the Red Cross executive was held in the society's room last Tuesday afternoon. A letter was read from the head office of the society in this province advising the local branch that an effort was being put forth to secure Red Cross donations from all celebrations held on Dominion Day. As no celebration was being held here this year, the letter stated that the secretary be instructed to write the secretary of the Box Springs sports day committee drawing attention to this notice and requesting that no Box Springs was the only settlement in this Red Cross district holding a celebration, they make a special effort to secure a donation for this purpose.

A motion tendering the thanks of the society to the Red Cliff Club for allowing the society to use their room for an afternoon tea on May 28th was unanimously passed, and the secretary was instructed to forward a copy of the resolution to Mr. Geo. Lydiatt, president of the club.

The treasurer submitted the following report, which was adopted:

Balance May 8, 1917	\$ 29.20
Red Cliff School	2.30
Prisoners of War Fund	May.....\$13.05
June.....	10.95
Monthly Collections—	
May.....	74.20

Pogon Match May 24th	26.00
	\$241.55

PAYMENTS.  
Calgary Headquarters for—  
Kit Bags.....\$ 9.00  
Prisoners.....21.00  
Ogden Hospital.....27.00

Balance, June 12.....	\$174.75
Red Cliff School.....	\$241.55
	\$416.30

R. E. HOWARD

## Compulsory Service Measure Introduced

In the Federal house last Monday Sir Robert Borden's compulsory service measure was introduced. It is called the military service act of 1917. By it the government proposes to meet the demand for reinforcements by raising a force of men not exceeding 100,000 between the ages of 20 and 45. The men will be called out according to classes which have been divided into ten groups, beginning with unmarried men from 20 to 25. The first class of physically fit men, exempt apart from these. In other branches of the service, are clerical men and members of religious sects who are exempted from the military service, but who are liable to be called out in the event of a war.

There will be no registration, but when men contend that they should be exempted from military service their case will be adjudicated by local tribunals of an independent and non-political character, and if they are dissatisfied with the verdict of these tribunals, they may have recourse to a central appeal. Judge. Any man who refuses to respond to the call of his class will be treated as a deserter and dealt with accordingly.

## Big Steamers Dock On Atlantic Coast

Eleven large steamships aggregating 160,000 tons, six of them being the American flag, with a total tonnage of 77,574, have docked at an Atlantic port this week. It was announced by the International Mercantile Marine, owner of the vessels.

Among them was the Minnesota, 20,718 tons, being the largest merchant ship afloat on the steam and stripes. The other American ships were the St. Louis, St. Paul, Philadelphia, Mariner, Poland, and the St. Paul.

The largest of the eleven arrivals was the British ship Justicia a new vessel of 22,254 tons. She is the biggest ship to come into a port of this country. It was stated, since the Olympic left in 1914.

## Interesting Letter From Joe Tarrant

Donald McLean has in receipt of a letter this week from Joe Tarrant, one of the three Redcliff boys who left with the third and is still in the trenches. In his letter Joe says in part: "Well, I have no good news to give you about poor Bill McLean. There is a possible chance of his being around 'Blighty' as it is not uncommon for fellows to lose their reason and for a time being unable to give any account of themselves. I cannot see how he could be taken prisoner unless he lost his way in trench, but even then he would have to get on top to be taken. There was no record of any circumstances being taken prisoner on that trip. He was badly wounded, his hand, left side of face and right shoulder. His eyes might have been injured and he was badly dazed. He said he could not see at first but after he was bandaged he made off for the first dressing station which was in the trench a couple of hundred yards from him and did not know where the trenches for the past six months. Mr. Tarrant is at present living in Medicine Hat."

## Returning Soldiers to Get After Graters

Councillor Broughton had a letter from his brother in England this week in which the brother asks for enlightenment as to what "graters" mean. He was very much concerned about our council's safety in this country and anxiously enquired whether or not he belonged to the class known as "graters."

The reason for the brother's anxiety was this: He had visited the trenches in England where Canadian soldiers were confined and all these soldiers appeared to be of the one mind. They were cheerfully looking forward to the day when they would return to Canada and when they would join forces to rid the country of "graters." What they are going to do to the graters would not look well in print but it is what they deserve.

## Police Locate Goods Stolen From Todd's

Word was received here late this afternoon that the Medicine Hat police force had been successful in locating some of the goods stolen from W. H. Todd's clothing store last Monday week. They were their claim on a post card written to one of the waitresses in the Factory hotel in the Hat. The card was from Lethbridge and although it was only signed "M. H. H.," it was sufficiently successful in getting the young lady to tell them where it was.

In searching the Factory hotel the police found two of the stolen stripes, two rain coats and an assortment of other smaller goods. As a result of this find the author of the post card was arrested in Lethbridge and another man who is supposed to be an accomplice was arrested in Medicine Hat. There appears to be no doubt that the Hat police are on the right track.

## Another Air Raid Over East London

The Germans made another air raid over London last Wednesday and according to a statement made by the secretary of state for war, there were 49 persons killed and over 200 injured. The secretary feared these figures would be exceeded when fuller reports had been received.

Vice-Admiral William S. Sims, in command of the United States naval force, was automobiling through the east end at the time of the air raid and had a narrow escape from a bomb.

The east end of London, in which live the city's poor, suffered heavily from the raid. Bombs fell in many congested districts and while the number of casualties has not yet been ascertained two hospitals report handling upward of 50 cases; four of which died, and many of whom were seriously injured.

## HUDSON BAY RAILWAY.

Hon. Frank Cochrane, minister of railways, states that he has now been laid on the Hudson Bay railway within 92 miles of Port Nelson. The second bridge across the Nelson river will be completed in the summer and will be laid into Port Nelson before the end of the year.

## LOCAL CASUALTIES.

JOHN POLETS.  
Word came to Redcliff this week that Private John Polets had been wounded in action on May 31st. Polets was residing in Redcliff when he enlisted. He was wounded in the Rolling Mills at the time and the message announcing that he was wounded came to L. McLean, who at one time manager of the plant, so far as we can learn Polets has no relatives in this district. It is supposed he is a Canadian who came here shortly after the Rolling Mills re-opened for business.

## Baptists Make Start On New Church

Last Sunday evening the pastor called attention to the fact that the foundation of a church building, 25x40 feet had been built upon the church lots on Fourth street.

In reply to enquiries as to the erection of the superstructure, he said that the building committee had not yet reported enough cash in hand to purchase all the material needed for framing the new building. Friends were urged to transform their promise into cash, so that the next step to complete the building could be taken in July.

## "Dick" Hodge is Booked For Home

Mrs. R. S. Hodge of this town, received the welcome news this morning that her husband, Lance-Corporal Hodge, was booked to return to Canada and he expects orders to sail almost any time now.

"Dick," as he is most familiarly known, enlisted with the 56th and left Canada about 18 months ago. He was wounded in the hand and body about six months ago and has been in the hospital in England ever since. His friends here will be glad to learn he has sufficiently recovered to return to Canada.

## Commission to Control Grain Production

A commission to control the grain production of Canada, has been appointed by the Dominion government. It is composed of Dr. Magill, chairman; H. W. Wood, Alberta; S. K. Rathwell, Moose Jaw; T. A. Crozier, C. C. Gage, W. R. Davis, W. A. Macdonald and C. A. Stewart, Winnipeg; Wm. A. Best, Ottawa; Controller Almon, Montreal; and L. H. Clarke, Toronto.

Little action is possible on the part of the commission until such time as a similar body is appointed by the United States with similar power to co-operation with the Canadian commission. Pending the appointment of such an American commission, the Canadian commission will seek to keep prices on a parity with those in the United States. The commission has been granted great powers and will have authority to fix grain prices, regulate the storage, elevator and but not the price paid to the farmer.

## Allies Force King of Greece To Abdicate

The fall of Constantine I, king of the Hellenes, has come. In response to the demand of the protesting powers, Greece, Great Britain and Russia, he abdicated last Tuesday in favor of his second son, Prince Alexander.

This climax in the affairs of Greece was brought about through the agency of the French senator, M. Jonart, who has held positions in several French cabinets and who arrived at Athens only a day or two before on a special mission as a representation from France, Great Britain and Russia. He had previously visited Salonika and other points, and he lost no time in getting into conference with the Greek premier, Zaimis.

The demands of the powers respecting the abdication of King Constantine also specifically demanded Crown Prince George as his successor, the crown prince being included among those Greeks in official life who were considered as strongly pro-Germans. Both the former king and Prince George, it was announced Tuesday by Premier Zaimis, intend to leave the country immediately. It is reported that they will embark on a British warship, and proceed to Switzerland by way of Italy.

It is presumed that Prince Alexander will take up his kingly duties with full acceptance of the ideas which the protesting powers desire to be put into effect in the government of Greece during the present war. He is 34 years of age.

## Rolling Mills To Double Staff Soon

Will Add Another Furnace  
To Plant and Run Full  
24 Hours—Will Employ  
250 Men in Future.

In order to be in a better position to cope with the growing demand for goods manufactured at the Rolling Mills here, the management have decided to make some additions to and improvements in the present equipment.

## Ladies Give Surprise To Mrs. Waters

About twenty-five ladies of the town met at the home of Mrs. Geo. Thompson last Tuesday evening and from there proceeded in a body to the residence of Mrs. J. D. Kerr and the surprise party.

The party was given up in honor of Mrs. David Waters, Mrs. Kerr's mother, who was celebrating her 50th birthday day.

The arrival of the guests, although a complete surprise, was the real for great merriment. After the usual hand shaking and congratulations to her in whose honor the party was arranged, the ladies took things in their own hands and called on a program of games which were liberally interspersed with music and addresses appropriate for the occasion.

As a large percentage of those present were married women of wide experience in the culinary art, the great freshment hour was a most important part of the evening's program. Refreshments were served in the dining room, and the ladies of every description were brought from every corner as if by magic, and all sat down to a most tempting lunch.

Mrs. Mary D. Smith, Fairbairn, Ross D. McLachlan, W. Smith, Holton, Duggan, Wm. A. Best, Short, Sutherland, Thomson, Shimm, McKay, Louie, Misses Bright, A. Timmins, J. Waters, Duggan, Timmons, Hicken, Gray.

## Sample Market is Not Yet Assured

The meeting called by the Canada grain commission to discuss the location of a rules for regulation of sample markets, spent much time discussing the merits and demerits of the sample markets. The full board of commission, Leslie Boyd, W. D. Johnston, J. J. Jones, was present. The attendance of delegates was large.

The grain exchange, having been definitely for rules and regulations under which sample markets could be operated, confined their statements to such rules and regulations and made no comment on the good or bad points of such markets. At the close of the session it developed that the Canadian Council of Agriculture had held a meeting on Monday and passed a resolution, representing the establishment of the markets until after the war, a view in which the executive of the Saskatchewan Grain Growers' association concurred.

## Hun Sub Gets Another Big One

The Loyland liner Anglian which left Boston on May 26th for Liverpool has been torpedoed and sunk by a German submarine, according to cable advices received by agents in Boston.

The advice stated that the crew had been saved, although officers of the Loyland line said they had no information regarding the attack where the Anglian was sunk. Ship and cargo were valued at \$2,000,000. The Anglian, formerly the Nagasaki, was a British steamer 2,500 tons gross and was built in 1895.

## GETTING AFTER CATTLE.

At the council meeting last Monday complaints were registered against the carelessness of some people in allowing their cattle and horses to run at large. These stray animals are a source of annoyance to those who have garden patches and besides are doing considerable damage.

This carelessness on the part of owners of stock is, to say the least, very mean, and should not be tolerated for a minute.

It is the intention of the council and the pound-keeper to get after these careless ones by a vengeance but in their efforts they should get the assistance of our citizens.

We would remind the careless ones that there is a bylaw prohibiting cattle from running at large, and to it is attached a heavy fine. Besides this there are pound fees, and provision made for payment of all damage done by these stray animals.

From this it may be seen that this carelessness may prove very expensive to the ones caught.

Apart from this, however, the practice is most discouraging to those who are performing a patriotic duty by having their own garden.

## A COMPARISON.

Canadian boys at the front have been and are making history every day; history which will shine through the misty ages as a glowing tribute to the loyalty of this, the brightest gem in the crown of Britannia; history which will be read with pride by our children's children down through the generations because it will tell that the best and bravest of our sons, regardless of political stripe, sect or creed, rallied to the standard to fight and bleed and die to uphold the principles which alone exalt a nation.

When we meditate upon this glorious record which will illuminate the pages of future history how depressing and disappointing it is to think that, alongside of these pages, will be the record of those in the seats of the mighty who have sacrificed their loyalty and honor on the altar of a boundless ambition for votes and temporary power, and those who have grown fat on the blood of our sons.

## A CLUE.

The destruction of a cold storage plant in Regina, last week, discloses the fact that there was in the building at the time of the fire five car-loads of eggs. This is a very interesting disclosure at the present time and should furnish one reason for the present outrageous price of eggs. If the Regina plant had this amount of a very necessary food stored up for speculative purposes it is only reasonable to assume that other storage plants are doing the same thing. Here is a clue for the food controllers to work on. But did they need a clue?

Everybody knows this sort of thing is going on right under our very nose, yet no one in a position to do so appears to have the backbone to make a move.

People with a garden, and the necessary time, can greatly lessen the food cost by canning their own fruits and vegetables. A receipt for canning vegetables may be seen in this issue.

## ABOUT SEED GRAIN.

"Conservation" is already sounding a note of warning to farmers to prepare their seed for next year's crop. After going into details to prove where farmers are losing out by not paying enough attention to the selection of seed grain the article says:

"If the grain from the best plot or parts of the fields is stored and then, graded or fanned until all the small and inferior kernels are removed, the quality will be greatly improved, by improving the seed the net profit on a grain crop can be greatly increased such action increasing the yield a little without increasing the cost of production.

It is not much trouble to keep apart the best portion of the crop for seed. It would even pay to give special care to a special lot or small field from which to obtain seed for the following season's crop. There is, perhaps, nothing on the farm that will give a more profitable return than the time spent in securing a supply of good seed. Plan now to save the choicest of this year's crop for next spring's seeding.

Keep down the weeds in the garden. They take proportionately as much nourishment from the soil as the vegetables.

Food experts say: "Use all the cereals foods possible. Their protein is quite as valuable as animal food protein, and cheaper."

A farm journal, among our exchange says: "A one to two-year old sow, when ploughed under will enrich the soil as much as would manure applied at the rate of 10 to 12 tons per acre."

Piles of trash and rubbish in fence corners and in out-of-the-way places should be piled up in the attic or cellar, are inanimate "fire-bugs" waiting only for the opportune spark or the slower process of spontaneous combustion to burst into flame.

When we read in the press that a German girl disguised as a nurse put poison into the wounds of a Canadian soldier, as a result of which he died, we are reminded that a new field will be opened up for Christian missionaries when the war is over.

The Kaiser is reported to have barely escaped death on the Belgian front the other day when two of his party were killed instantly by airplanes shells. Evidently the Kaiser's time has not come yet. A death like that would be too civilized for him to appreciate.

The recent provincial elections showed that the good days of gallantry have not entirely passed away in Alberta. Mr. Wm. Moffatt, the defeated candidate in Claresholm, is a gentleman of the old school. He gave up his seat as a lady as the conductor called out: "Change cars for Edmonton and all points north."

Counting the Conservatives, soldiers' representative, non-partisans and Labor members, the Sifton government's working majority in the next legislature will be less than ten. As the next best thing to a good government is a good strong opposition, conditions should be very favorable at Edmonton for the next five years.

At the Presbyterian general assembly the other day a returned Canadian chaplain testified that Canadian troops in France are the most sober men there, he having this from the French townspeople themselves. Not long ago a Methodist returned chaplain said the privileges of the wet canteen were not

abused by the Canadian soldiers. These assurances should be encouraging to parents in this country whose sons are at the front.

A Boston letter: Professor Fumhasked, absorbed in a book was walking down the street with one foot in the gutter and one on the pavement.

A little way down the road he was clapped on the back by the doctor. "Well, professor, and how are you to-day?"

The sage thought for a moment. "To tell the truth, doctor," he said, "I was perfectly well when I got up this morning, or I thought I was. But as you know, I'm really very nervous, but a suit extraordinary line has come over me since I left the house! Must be rheumatism, I suppose!"

## Cleaned Out!

"Do you expect to spend a pleasant holiday?" "I hope so. I think about all I have to spare."

No leftovers. The appetite of the dining was a keen one, and he was doing full justice to the excellent dinner provided for his host. The little daughter of the house watched him, open-mouthed for a while. Then, finally, she smiled on his brightly said:

"Oh, I do wish you were here to dinner every day."

The guest beamed with satisfaction. "Oh, my dear?" he said, "I'm glad."

"Because," came the unexpected reply, "there won't be anything left to eat tomorrow."

"Because," came the unexpected reply, "there won't be anything left to eat tomorrow."

"Because," came the unexpected reply, "there won't be anything left to eat tomorrow."

"Because," came the unexpected reply, "there won't be anything left to eat tomorrow."

Progress of War  
Is Still Favorable

In the fighting on the situation is considerably better, except in the British front in France, along the line held by the French troops against the German line in the region running eastward from Sedan into Champagne, and on several sectors of the Austro-Italian theatre.

On the Italian front, the Germans have again smashed into the troops from east and northeast of Mesinze, and largely extended the gains previously made in this region. Nearly two miles of trenches were stormed and occupied by the British, and it is believed the small village of Canus, directly east of Mesinze, was captured.

Berlin reports capture by the British cavalry east of Mesinze during Monday afternoon, but says they are not sure if the mounted men was repulsed, and only remnants of them were able to return to their positions.

The German artillery in the neighborhood of Lens and Ypres is bombarding the British line.

The artillery of the French and Germans is still active along the Chemin-de-Dames and in Champagne. During Tuesday the French made gains on German trenches near the Butte de Meul, and in the region of Hazle Chevauché, found considerable damage to the positions, and capturing prisoners.

Bad weather for the moment has caused somewhat of a cessation in the activity in the Trentino district of the Austro-Italian theatre, although artillery duels of considerable proportion continue.

Bad weather for the moment has caused somewhat of a cessation in the activity in the Trentino district of the Austro-Italian theatre, although artillery duels of considerable proportion continue.

In Macedonia the Teutonic allies have met with repulses in several surprise attacks made against the French troops. The artillery duels continue in the Gerns head.

## Says Revolution is Billed for Germany

Lawrence secretary of the German federation of the Socialist party in the United States, has announced that a revolution will be started on September 27th of this year. According to the information received by Mr. Lore, the principal springs are to occur in Poland, Ireland, the Ruhr, Berlin and Frankfurt-on-Main.

Although the information which came to Mr. Lore and other Socialists in America concerning the possibility of a revolt in Germany is by no means definite in character, it is presumed that the Economic Socialists, who favor the abdication of the Kaiser and the establishment of a German republic.

Work along the line of aiding the revolutionaries and fostering the spirit of revolt is being done now in the United States and abroad by the friends of the German republic, an organization which was formed recently for the purpose of aiding the German people to rescue themselves from the perils of military autocracy and to overthrow "the Kaiser and his and their blood-stained helpers and backers."

## Prohibition in U. S. Takes Forward Step

Prohibition took another forward step in the United States this week when congress decided to combine the many prohibition amendments to the food bills, in one separate measure for conservation of grains and thus protect the manufacture of foodstuffs into beer and malt liquors as well as distilled spirits. The senate agricultural committee reached this decision.

The senate judiciary committee favorably reported a resolution by Senator Chapman for prohibition constitutional amendment. A similar resolution failed last session.

## Canadians Hold Ground They Gained

Activity in the Canadian front, which continues, is largely confined to the northern sector on the region of the Scheldt river. His is the scene of strong points during the last few days has stirred the enemy up to vigorous action. Last night his counter-attacks in the house of Germany the machine gun positions from which a dozen machine guns were removed during the last few days and the Canadian Lewis guns put in their place, all firing the east. The attack was repulsed by the heavy barrage, but broke down completely under the Canadian artillery and machine gun fire. The assaulting party retired in the direction of Lens after sustaining material losses.

Good Recipe For  
Canning Vegetables

The shortage of labor and the scarcity of canned goods, has led to the very material reduction of the output and increased the cost of canned vegetables, so much so, in fact, that it is necessary to use almost primitive to the average family.

There is little reason, however, for any family to be without a sufficient supply for next winter. Home canning of vegetables is a simple matter, when put up in ordinary glass jars, securely sealed, they are equal if not superior to the factory brand, and the cost is much lower.

Pears, string beans, sweet corn, pumpkins, beets, tomatoes and all vegetables which will not keep without cooking, may be canned.

After cleaning and preparing the vegetables to be preserved, they are soaked in a cheesecloth bag and are boiled for five minutes. They are then dipped in cold water, packed in glass jars, boiling water poured over them, till up all crevices, and the lids loosely applied. The jars are then placed in an ordinary boiler filled with water, with places which must be prevented the jars touching the bottom of the boiler, and are allowed to boil steadily for 30 minutes.

Puffed glass jars, which lids must be screwed down tight, and the jars allowed to gradually cool, are being filled with jars, which are not exposed to drafts "a sudden cooling may crack the glass."

Vegetables thus canned will keep and be a welcome addition to the table in lieu of the high-priced canned goods, and the surplus supply of vegetables, which otherwise might be wasted, will be conserved.

## Says Canada Should Have West Indies

A Canadian correspondent in the London Times says: "The London Times plans for the development of inter-imperial trade and for the political union of component parts of the empire will necessarily require the deal of attention. In this discussion the possibility of creating a complete political and economic union in the world, a confederation of Canada, Newfoundland and the British West Indies should not be overlooked. Several attempts have been made without much success to establish closer commercial relations between Canada and the British West Indies, and also to bring about confederation, as well as certain tariff arrangements within the islands themselves."

## British Isles Are Self Supporting

It is said that as far as grain foods are concerned the British Isles will be practically self-supporting this year. Three million acres of land hitherto uncropped, mostly parks and estates of the nobility, have been brought into crop. Not only will this large addition to Britain's crop area make her independent of imports of foodstuffs, but the submarine menace, but will leave a large portion of the world's export for other countries which will be short.

### ITEMS OF LOCAL INTEREST

Ice Cream always on hand at the Home Cooking Store.

FOR SALE—Young piglet; apply to Harry Johnson, Broadview, Bowell, P. O.

Mrs. G. E. Hanna, of Revelstoke, B. C., is spending a few days in town this week the guest of Mrs. M. McFall.

The Baptist pastor, Rev. P. T. White, will be away from town attending the Alberta convention at Edmonton from June 18th to 23rd.

During the electrical storm last Friday Geo. Lemon, of this town district, had a mare and colt struck by lightning and killed.

When friends drop in unexpectedly remember we have a full line of home-made cakes at the Home Cooking Store.

The local tennis court is being well patronized these days by the young people of the town. The court is in excellent condition and many close contests are indulged in.

The east bound passenger train had a long stop here last Monday evening. The delay was to give the express messenger time to unload five tons of gas also shipped by express to the Rolling Mills here.

LOVELY UNDERWEAR FOR WOMEN

Lieut. V. P. Woodcock is now in England taking a course in motor machine gun work.

The Canadian Forestry & Machine Company received eight car loads of raw material this week to be used in the plant here.

Miss Matheson of the school staff, took her class down to the coast last Wednesday afternoon for a lesson in nature study.

Miss Agnes Oakland surprised her friends last Saturday by announcing that she had been married last December to Edward Millard of this town.

Miss A. Woodcock returned home last Tuesday after spending two weeks in the south visiting friends. Mr. Woodcock remained in Spokane where she will visit another few weeks.

Miss Gibson, of St. Ambrose rectory, is attending the W. A. convention in Moose Jay this week. After the convention she will visit Mr. Harrison, of Pense, Sask., for a few weeks.

United services are now being held at the home of Geo. Dixon, north of town, every Sunday afternoon. Sunday school is also held before the service. Both these services are being well attended and will be continued throughout the summer. Mr. F. Scram is superintendent of the Sunday school and Mr. Geo. Dixon secretary. Rev. P. T. White, of Redcliff, conducts the service.

A Calgary magistrate has decided that lemon extract is intoxicating and those selling it in Alberta are liable to a fine of \$100.

Her many friends are glad to see Miss C. McKay, back on the post office staff again. She returned from her holidays last week and is feeling much improved in health.

The "Mythic Defender" is the title of the next film in the "Shielding Shadow" at the Amuse-a-Friday night. This is the first episode in which the Shielding Shadow appears.

The summer time table on the main line of the C. P. R. will go into effect this year on June 24th. It is expected the trains will run on about the same schedule as last summer.

H. E. Aichison, who at one time was in the hardware business here, passed through town today on his way west. Mr. Aichison, was married in Medicine Hat, this week and is now on his honeymoon.

We are informed that a number of our ratepayers have already taken advantage of the 10 per cent discount on taxes paid before the end of this month. Have you paid yours yet? Remember every dollar saved counts these days.

At the Presbyterian general assembly being held in Montreal this week the commissioners accepted the recommendation that a revised book of prayer be published. It was also decided that the assembly will meet in London next year.

### CHURCH NOTICES

#### Submit or Starve

The All Russia Congress of Representatives delegations after discussing, at a special sitting, the recent events at Kronstadt, passed the following resolution on June 12, 1917 to 47: "The congress wishes to inform the inhabitants of Kronstadt that the peasants will stop the dispatch of all food to Kronstadt if the town does not immediately join the revolutionary forces to those of the Russian democracy, and unless it recognizes the provisional government."

#### FUEL CONTROLLER APPOINTED.

Mr. C. A. Magrath, at one time M. P. for this constituency, has been appointed fuel controller for the Dominion. Mr. Magrath's work is expected largely with eastern Canada, and he will look after transportation problems chiefly. His principal work will be to see after the movement of coal from the United States and from Nova Scotia. He will not interfere with district 18.
